

Aditinet UK Jobs:

Consultant Engineer

At Aditinet we offer you the opportunity to be part of an exciting company culture and develop your experience in the the fast growing world of IT and cyber-security. You will receive:

- ▶ Full soft skills training
- ▶ Additional vendor certified training (where necessary)
- ▶ Travel and working with industry partners
- ▶ Attendance at trade shows
- ▶ Full support of account management team

Working in our unique environment, you will receive full support from our account management team as well as any required commercial and certified technical training.

You will work in a team and be expected to be a mentor to junior staff and offer regular feedback as an industry expert to help them progress through learning and development stages. We want you to help to close the skills gap in cyber-security.

Aditinet UK will support you to continue learning about the products, the security industry, clients as help you run successful consultancy engagements and much more.

As a Consultant Engineer you will have:

- ▶ Great attitude towards team-working
- ▶ Open mind and will to win
- ▶ Energy to contribute
- ▶ Relevant experience

As a Consultant Engineer we will provide:

- ▶ Access to great technologies
- ▶ Ongoing training and contacts
- ▶ Varied and relevant experience
- ▶ Career opportunities

Why become an Aditinet Consultant:

- ▶ Gain access to a fast growing market
- ▶ Access varied companies
- ▶ Top commercial training
