

Aditinet-as-a-service

WINNER
Channel Service
Provider of the Year
Aditinet

Helping you to maximise time and efficiency

Pre-sales

Pre-staging

Resourcing desk

Consultancy

SOC support

Call escalation

Reduce costs, complexity and overheads with our range of as-a-service options.

Services:

Bulk volume of software onto hardware pre-staging

Storage and delivery

Capacity planning and arrangement

Change is constant in IT, so outsourcing can help to make your services and solutions sustainable. Identifying areas that benefit from managed services can improve your company efficiency and fuel your growth.

Aditinet pre-staging is available to help you with the receipt, preparation, pre-configuration and shipping of hardware and products for your customers.

Our team can support you across your portfolio of technologies from initial contact through to professional services and ongoing support.

We include management and training to ensure that we can offer the best and most relevant support available.

Advantages:

Resilience – sickness; holiday

Burst resilience – increased business levels

Managed scaling of resources

Off-headcount

Efficiency to deliver more with less

Business analysis (won/lost/spend %/etc)

Included:

Management; direction; reporting

Continuous training

Partner (supplier) management

Governance adoption
