Custom

Speed up engagement by working faster and smarter with our pre-packed service options.

## Health-check:

Collect current information

Check configurations, software, patches,  
hardware

Highlight findings in standard report

Produce and present report

Prioritise remediation activities (if any) with  
timescales

Companies are under pressure to do more with less and need to ensure that they are using technology effectively and efficiently. One way is to leverage our portfolio of pre-packaged installation, upgrade and health-check services.

Getting the best from existing infrastructure is the starting point for your clients to improve, evolve, and grow. Our health-checks are a quick and convenient way of identifying whether your customers have any configuration or security issues on their systems. You can ensure your customers get the most from solutions they already have, identify new opportunities and increase customer satisfaction and retention.

## Advantages:

Go to market initiatives

Build customer relationships

Identify cross-sell and up-sell opportunities

Growth company service revenue

Easier attachment of services

Fast sign-off
